SAFETY DATA SHEET

Section 1: Identification: Product identifier and chemical identity

Product Identifier: ALTRISET Termiticide

Other Means of Identification: Proper shipping name: : Environmentally Hazardous Substance,

Liquid, N.O.S. (chlorantraniliprole)

Applicable only for marine and air transport

Product code: A16130J

Recommended Use: For professional use only in the management of Subterranean

Termites

Details of manufacturer or

importer

Syngenta Australia Pty Ltd

ABN 33 002 933 717

Address: Level 1, 2-4 Lyonpark Road

MACQUARIE PARK NSW 2113

AUSTRALIA

Website: syngenta.com.au Phone Number: (02) 8876 8444

Emergency Phone Number: 24 hours - 1800 033 111

Section 2: Hazards identification

Classification of the Hazardous Not classified as hazardous under GHS criteria.

Chemical:

Signal Word:

Hazard Statement(s):

Precautionary Statement(s): -

Hazard Symbols: -

Section 3: Composition and information on ingredients

SUBSTANCE

Chemical Identity of Pure Substance: Chlorantraniliprole

Synonym: SYN 545170 **CAS Number:** 500008-45-7

MIXTURE		
Chemical Identity of Ingredients:	CAS No	Proportion (% w/w or w/v)
Chlorantraniliprole	500008-45-7	20
1,2-benzisothiazol-3(2H)-one:	2634-33-5	<0.05
2-bromo-2-nitropropan-1,3-diol	52-51-7	<0.1
Non-hazardous ingredients	-	to 100

Section 4: First aid measures

Description of Necessary First Aid Measures:

In case of poisoning by any exposure route contact a doctor or Poisons Information Centre on 131 126.

Have the product label or SDS with you when calling or going for treatment.

Ingestion: If swallowed, seek medical advice immediately and show

> this container or label. DO NOT induce vomiting.

Eve contact: Rinse immediately with plenty of water, also under the

eyelids, for at least 15 minutes. Remove contact lenses.

Immediate medical attention is required.

Take off all contaminated clothing immediately. Skin contact:

> Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.

Inhalation: Move the victim to fresh air.

If breathing is irregular or stopped, administer artificial

respiration.

Keep patient warm and at rest.

Call a physician or poison control centre immediately.

Symptoms Caused by **Exposure:**

Poisoning symptoms in laboratory animals were non-specific.

Medical Attention and Special Treatment:

There is no specific antidote available. Treat symptomatically.

Section 5: Fire fighting measures

Suitable Extinguishing

Equipment:

Small fires: Use water spray, alcohol-resistant foam, dry chemical or

carbon dioxide or water spray

Large fires: Alcohol-resistant foam or Water spray

Chemical:

Specific Hazards Arising from the As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products

of combustion (see section 10).

Exposure to decomposition products may be a hazard to health.

Special Protective Equipment and Precautions for Fire

Fighters:

Wear full protective clothing and self-contained breathing apparatus

Section 6: Accidental release measures

Personal Precautions, Protective

Equipment and Emergency

Procedures:

In case of spillage it is important to take all steps necessary to

- Avoid eye and skin contact
 - Avoid contamination of waterways

Environmental precautions:

Prevent further leakage or spillage if safe to do so.

DO NOT flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform

respective authorities.

Methods and Materials for Containment and Clean Up: Procedure for spill

(1) Keep all bystanders away

Wear full length clothing and PVC gloves

- (3) Reposition any leaking containers so as to minimise further leakage
- (4) Dam and absorb spill with an absorbent material (eg sand or soil)
- (5) Shovel the absorbed spill into drums
- (6) Disposal of the absorbed material will depend upon the extent of the spill
 - For quantities up to 50 L of product bury in a secure landfill site
 - For quantities greater than 50 L seek advice from the manufacturer (use emergency contact number below) before attempting disposal. Contain in a secure location until disposal method is established
- (7) Decontaminate spill area with detergent and water and rinse with the smallest volume of water practicable

Section 7: Handling and storage

Precautions for Safe Handling:	Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated. The extent of these protection measures depends on the actual risks in use. If airborne mists or vapours are generated, use local exhaust ventilation controls. Assess exposure and use any additional measures to keep airborne levels below any relevant exposure limit. Where necessary, seek additional occupational hygiene advice.
Conditions for Safe Storage, Including any Incompatibilities:	Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight.

Section 8: Exposure controls and personal protection

ALWAYS READ AND FOLLOW THE LABEL INSTRUCTIONS AND WARNINGS

	Component	Exposure limit	Value type	
National Exposure Standards:	No exposure standard allocated			
Syngenta Exposure Standards:	Chlorantraniliprole Total dust	10 mg/m ³	TWA	
	respirable dust 5 mg/m³ TWA			
Biological Limit Values:	No biological limits allocated			
Engineering Controls:	No special requirements. Product is used outdoors.			
Personal Protective Equipment:	No special personal protective equipment is required.			

Section 9: Physical and chemical properties

Appearance:	White semi-viscous liquid	Boiling Point/Range:	No information available
Odour:	Alcohol like	Freezing/Melting Point:	No information available
pH:	7.3 1% solution	Solubility:	Soluble in water
Vapour Pressure:	No information available	Density:	1.09 g/cm ³ (25°C)
Vapour Density:	No information available		

Flash Point: > 101°C closed cup **Explosive Properties:** Not explosive

Upper and Lower

Flammable (Explosive)

Ignition Temperature:

Limits in Air:

No information available

Oxidising Properties:

Not an oxidiser

No information available

Combustibility: 535°C

Corrosiveness: No information available

Section 10: Stability and reactivity

Reactivity: No hazardous reactions by normal handling and storage according

to provisions.

Chemical Stability: The product is stable when used in normal conditions

Possibility of Hazardous

Reactions:

No hazardous reactions by normal handling and storage according

to provisions.

Conditions to Avoid: No decomposition if used as directed

Incompatible Materials: No substances are known which lead to the formation of hazardous

substances or thermal reactions.

Hazardous Decomposition

Products:

Combustion or thermal decomposition will evolve toxic and irritant

vapours.

Section 11: Toxicological information

Health Effects from Likely Routes of Expos	uro.

Acute Oral toxicity: **LOW TOXICITY**

Tests on rats indicate this product has a low toxicity following single

doses of undiluted product $LD_{50} = >5,000 \text{ mg/kg}$

Dermal toxicity: LOW TOXICITY

Tests on rats indicate this product has a low toxicity following skin

contact with undiluted product

 $LD_{50} = >5,000 \text{ mg/kg}$

Inhalation: **LOW TOXICITY**

Tests on rats indicate this product is not harmful due to inhalation of

undiluted product

 LC_{50} (4 hours) = >2 mg/L

Skin irritation: **NON IRRITANT**

NON IRRITANT Eye irritation:

Sensitisation: **NOT A SENSITISER**

Chronic Chlorantraniliprole technical has been extensively tested on laboratory mammals and in

test tube systems. No evidence was obtained of mutagenic, carcinogenic, teratogenic or

reproductive effects

Section 12: Ecological information

Ecotoxicity Toxicity to fish: Slightly toxic to fish

Bluegill sunfish (Lepomis macrochirus)

 LC_{50} (96 hours) = >9.9 mg/L

Very highly toxic to Daphnia Toxicity to daphnia and other aquatic Water flea (Daphnia magna) invertebrates: EC_{50} (48 hours) =

Toxicity to algae: Practically non-toxic to algae

> Green algae (Pseudokirchneriella subcapitata) ErC₅₀ (72 hours) >20 mg/L

Toxicity to soil Practically non-toxic to earthworms

dwelling Eisenia foetida (earthworm): LC₅₀ >5000 mg/kg, 14 day organisms:

Persistence and Degradability:

Chlorantraniliprole is not readily biodegradable

Mobility in Soil: Chlorantraniliprole has medium mobility in soil

Bioaccumulative Potential:

Chlorantraniliprole does not bioaccumulate

Section 13: Disposal considerations

Disposal Methods:	Triple or preferably pressure rinse containers before disposal. Add rinsings to the spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If no facility is available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with Local, State or Territory government regulations. DO NOT burn empty containers or product.
Special Precautions for Incineration or Landfill:	Not applicable

Section 14: Transport information

LAND TRANSPORT ADG	Not a dangerous good in Aust	tralia	
UN Number:	None allocated	Packing Group:	None allocated
UN Proper Shipping Name:	None allocated	Special Precautions for User:	None allocated
Transport Hazard Class:	None allocated	Hazchem or Emergency Action Code:	None allocated
Subsidiary Risk:	None allocated		

SEA TRANSPORT IMDG			
UN Number:	3082	Subsidiary Risk:	None allocated
UN Proper Shipping Name:	Environmentally Hazardous Substance, Liquid, N.O.S. (chlorantraniliprole)	Packing Group:	III
Transport Hazard Class:	9	Environmental hazards for Transport Purposes:	Marine pollutant

AIR TRANSPORT IATA - DGR	Take details from global SDS		
UN Number:	3082	Subsidiary Risk:	None allocated
UN Proper Shipping Name:	Environmentally Hazardous Substance, Liquid, N.O.S. (chlorantraniliprole)	Packing Group:	III
Transport Hazard Class:	9		

Section 15: Regulatory information

APVMA Product Number:	64594
Poisons Schedule (SUSMP):	Exempt

Section 16: Any other relevant information

Date of preparation or last revision: November 2016

Source of Data: The information provided in this SDS is sourced from Syngenta internal studies which have been conducted according to Regulatory requirements including OECD and CIPAC Guidelines and EC Directives. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

Note: This product is a registered agricultural chemical and must, therefore, be used in accordance with the container label directions

CONTACT POINT: Regulatory Affairs Manager, Syngenta Australia Pty Ltd (02) 8876 8444

24 HOURS EMERGENCY CONTACT: 1800 033 111

This Material Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

DISCLAIMER

This product complies with the specifications in its statutory registration. Implied terms and warranties are excluded. Syngenta's liability for breach of the express or any non-excludable implied warranty is limited to product replacement or purchase price refund. The purchaser must determine suitability for intended purpose and take all proper precautions in the handling, storage and use of the product including those on the label and/or safety data sheet failing which Syngenta shall have no liability.
